EDUCATION

California Polytechnic State University | San Luis Obispo, CA

Expected May 2029

B.S. in Computer Science | Class of 2029 | GPA: 3.9

- **Courses:** Data Structures, Calculus Series, Linear Analysis, Game Design, Intro to Game Design
- **Current affiliations:** Vocaview, Mustang Market, Codebox, CIE Hatchery, Campus Compass
- **Honors:** Dean's List

TECHNICAL SKILLS

Coding Languages: Python, JavaScript, TypeScript

Tools and Frameworks: Node.js, Vite.js, Firebase, Supabase, Chrome Debug Console, Vercel, Git, Google Cloud, React

RELEVANT EXPERIENCE

Spread Goodness® | *Software Engineering Intern* | Remote

Nov. 2025 - Present

- Engineered early adopter flow payment system for an education conference pilot, integrating **Stripe API** with **Google Apps Script/Sheets**, and **Firebase** to instantly process down payments and capture initial interest during the convention.
- Designed and implemented a new dashboard for teachers/schools to monitor student emotional changes and class metrics; optimized **Firebase** calls for cost efficiency, **reducing calls by 10x** and enforced **separation of concerns** by dividing UI and logic components. (focusing on backend efficiency.)
- Built and deployed **PWA** functionality for mobile use, which included a mobile UI/**CSS revamp**, package updates, and converting the app logo to an optimal image format.

ShareTea Bellingham | *Database Engineer & Shift Lead* | Bellingham, WA

Jun 2024 - Sep. 2025

- Built **inventory management database** to track supplies and automate restock alerts using **Google Sheets** and **Google Apps Script**, increasing inventory tracking efficiency by **90%**
- **Accelerated team proficiency** by **mentoring 3+** new hires and streamlining onboarding to minimize initial ramp-up time

PROJECTS

Mustang Market | *Personal Project* | mustang-market.com

Jan 2026 - Present

- Created online student marketplace **website + mobile apps** using **Next-Firebase-Vercel** tech stack, and utilized **firebase storage, cloud functions** for direct messaging and listing system.
- Worked with in **team of 3** to plan, program, launch, market, and get users in just **2 weeks**
- Launched website to **3000+ visitors** and **500+ users** in first **10 days** and created social media posts that gained over **50,000** views

Vocaview | *Personal Project* | vocaview.com

Jul 2025 - Present

- Built and shipped a **Chrome extension + React** website using **Vite, Supabase**, and a **self-hosted VPS** backend, including cross-site auth flows and production usage telemetry.
- Developed subtitle translation infrastructure with **Supabase Edge Functions** and **Groq**, adding fallback logic, **caching, rate limits**, and token-based daily quota enforcement.
- Implemented **Stripe** subscriptions + creator affiliate payouts (webhooks, commission ledger, Connect onboarding), and migrated frontend delivery to **Cloudflare Pages**.

LEADERSHIP & ACHIEVEMENTS

1st Place | CALPOLY 2025 ELEVATOR PITCH COMPETITION | youtu.be/fwE4Xvotm8s

Nov 2025

- Awarded **1st place in the school** for pitching Communicare, an AI-driven communication coach; secured **\$1000 in seed funding/prize money**
- Presented a high-pressure, 90-second pitch to a panel of **industry judges** and entrepreneurs, focusing on **market viability**, technical scalability, and **AI integration**

TOURNAMENT DIRECTOR | CALPOLY CLASH ROYALE

Jan 2026

- Spearheaded the **first-ever 2v2 campus tournament**, managing all **logistics for 12 teams (30+ attendees)**, including **venue booking** and bracket software
- Orchestrated **multi-channel marketing** (campus flyers, Discord, social media) and secured prizes including Pass Royales and custom physical memorabilia to drive engagement
- **Directed live event flow** and resolved technical connectivity issues in real-time to ensure a **seamless competitive experience**
